More activity than has been noted for some time characterized the sugars, and there was a general stiffening up in prices all along the line. The activity was attributed by some to the recent visit of Havemeyer and his associates in the sugar trust, holding that this visit meant a broadening out of the industry in Utah broadening out of the industry in Utah and Idaho; others account for the activity by pointing out the heavy beet crop while others hold that the sugar stocks have been too low for some time past and are now but taking their legitimate position. What Sulphur Does.

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall. It was the universal spring and fall "blood purifier," tonic and cure-all,

and, wind you, this old-fashioned remedy was not without merit. The idea was good, but the remedy was crude and unpalatable, and a large

nantity had to be taken to get any Nowadays we get all the beneficial

effects of sulphur in a paiatable, con-centrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur. In recent years research and experi-

ment have proven that the best sulphur-for medicinal use is that obtained from Calcium (Calcium Sulphide), and sold in drug stores under the name of Stuart's Caicium Wafers. They are small twelve were females. The deaths re-chocolate coated pellets and contain the ported numbered nineteen, of which active medicinal principle of sulphur in a highly concentrated, effective form.

Few people are aware of the value of this form of sulphur in restoring and smallpox and fourteen cases of typhoid maintaining bodily vigor and health; sulphur acts directly on the liver, and shipfur acts directly on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of waste material.

Our grandmothers knew this when

they dosed us with sulphur and molasses every spring and fall, but the latter seized his property in Bingham crudity and impurity of ordinary flow- canyon and ejected him April 15, and ful that I could not close them when ers of sulphur were often worse than still holds possession of the land. Be-the disease, and cannot compare with sides the damages, Amicone asks \$150 the modern concentrated preparations rent for the premises, which are desulphur, of which Stuart's Calcium scribed as lot 15, block 2, plat C. Wafers is undoubtedly the best and most widely used.

They are the natural antidote for liver and kndney troubles, and cure con-stipation and purify the blood in a way that often surprises patient and

physician alike. Dr. R. M. Wilkins, while experimenting with sulphur remedies, soon found that the sulphur from Calcium was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation or malaria, I have been sur-prised at the results octained from Stuart's Calcium Wafers. In patients suffering from boils and pimples and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafers is a proprietary article, and sold by druggists, and for that reason tabooed by many physicians, yet I know of nothing so safe and reliable for constipation, liver and kidney troubies, and especially in all forms of skin disease as this remedy."

disease as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers," will find in Stuart's Calclum Wafers, a far safer, more palatable and effective preparation.

TOWNE IS A DEMOCRAT

BIG DEMAND Refuses to Accept the Populist Endorsement of His Candidacy For Congress. -

> New York, Oct. 22.—Charles A. Towne, the Democratic nominee for congress in the Fourteenth congressional district, sent a letter today to the executive committee of the People's party, declining that party's endorse-ment of him for congress. Mr. Towne

"I am a Democrat. I impugne ne man's motives. I recognize every citizen's right to exercise his political functions according to his own conscience, but I am profoundly of the opinion that in this campaign the fundamental principles of our republic are at stake and that a vote for any national ticket other than Parker and Davis is at least half a vote in favor of the abandon-ment of the doctrine of our national life. Under these circumstances I do not think myself justified in accepting a formal tender of support which applies discrimination against the balance of the Democratic ticket, in whose suc ess lies the only hope of defeating the Republican party."

It was officially stated at Tammany

hall that Representative Sulzer and Mr. Laughlin, candidates for congress, have also declined the Populist endorsement ITALIAN CATHOLICS

MAY VOTE AFTER ALL

Rome, Oct. 22.-The prevailing feeling among the pope's advisers regarding the attitude of the vatican at the oming elections seems to be not abolish the decree forbidding Catholics to vote. The Observatore Romano, the organ of the vatican, however, in un-official articles urges that the abstention from voting be merely to mask the free hand in the matter left to the bishops and advises the faithful to vote when it is considered advantageous to do so in view of the local conditions. If this decision is definite the clericals will not have a party of their own in the chamber, but will oppose the extremist and anti-religious candidates, especially the socialists, and will fa vor the conservatives.

CIRCULAR TO BE SENT TO THE FRENCH CLERGY

Rome, Oct. 22.—The pope is now working on a circular to be addressed to the French clergy. It will make no reference to politics. The pontiff will merely encourage the social and religious action of the clergy.

The fact that there will be no allu-

sions to politics in the circular is looked upon here as ending the policy inaugurated by the late Pope Leo XIII and Cardinal Rampolla, former papal secretary of state, which aimed at the transformation of the French Catholics into supporters of the republic. Pope Pius' recommendation being a union of good Catholics to defend religious interests.

The Value of Charcoal.

Few People Know How Useful It Is in Preserving Health and Beauty. Nearly everybody knows that char-coal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleans-Charcoal is a remedy that the more

you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and

eminently safe cathartic.
It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one

form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting loz-enges, the charcoal being mixed with

early for good bargains. Don't forget Will Remove to 23 West First South Street, a Few Doors West of Ufah National Bank,

> Some time ago an effort was made to oust Young Bros. from the premises where they have done business for so many years, but the landlord was un-successful at that time.

The lease having expired, they are now going to remove to the address above given, and realizing that a move is about as bad as a fire, they have decided to take away from the selling price of their stock an amount that will assure the early removal of all or at least the greater portion of it.

The stock is new and fresh throughout; the company not anticipating a removal had, of course, made recent purchases, but notwithstanding this, the prices will be cut to a ridiculous figure.

"We must lose money," said Mr. Young, "and we may just as well lose it first as last." So we will let our friends, the public, receive the benefit. Some idea of the excellent snaps that will be offered can be gained from the following:
A fine line of new drop-head sewing

machines, worth from \$45.00 to \$60.00, go at \$15.00 and up. go at \$15.00 and up.

Entire stock of the famous "Angelus"
Plano Player at less than factory cost.
A complete line of fine music boxes,
worth from \$40.00 to \$110.00, will be sold

at from \$20.00 to \$60.00.

Perhaps the greatest reductions are made on planes, of which they have a fine stock, worth from \$350.00 to \$600.00. These will be sold, the \$350.00 kind for \$150.00, and others at the same proportion.

The variety of organs carried are so

numerous that the prices are almost out of question, but reductions are the same great ones as on the rest of the One hundred violins will be sold at from \$2.00 up, whose value is from \$5.00 to \$75.00, and over 200 mandolins and

guitars at less than cost. The latest and best in sheet music. most of it worth up to 60c apiece, will be sold for 10c each. No reserve. Everything in the entire stock is of-fered and nothing is withheld from this

Coming as it does so near to the holidays, this sale offers the best opportunity to holiday purchasers ever given to purchase an instrument at such prices and store it till Xmas. Undoubtedly the people will make the
